

Wiley Registry of Mass Spectral Data, 10th Edition, Upgrade

Wiley

ISBN: 978-1-118-52549-4

April 2013

The Broadest Compound Coverage

The Tenth Edition of the Wiley Registry of Mass Spectral Data offers the largest mass spectral library ever commercially available, with over 719,000 spectra and over 684,000 searchable chemical structures. Containing over 638,000 compounds, the Wiley Registry is a must-have for any analytical laboratory, with over 3X the coverage of the next largest spectral library. Applications include pathology, toxicology, forensics, quality assurance, border control, research and development, commercial deformation, food safety, food quality, environmental science, and identifying an unknown compound or confirming a known compound.

Available in most common mass spectrometry software formats and compatible with most manufacturer systems, including ACD/Labs, Agilent, Bruker/Varian, DANI, Griffin, JEOL, Leco, PerkinElmer, Shimadzu, Thermo XCalibur, and Waters. Also available in MSP Kofel MassLib format.

Compound coverage verification for this and other spectral and chemical databases is freely available at www.compoundsearch.com
